

The Bavarian Natural History Collections (SNSB)

Tanja Weibulat, Dagmar Triebel

DWB Training with ITCER tools and data
in Africa – 46. DWB-WS, 16.10.2024

SNSB History

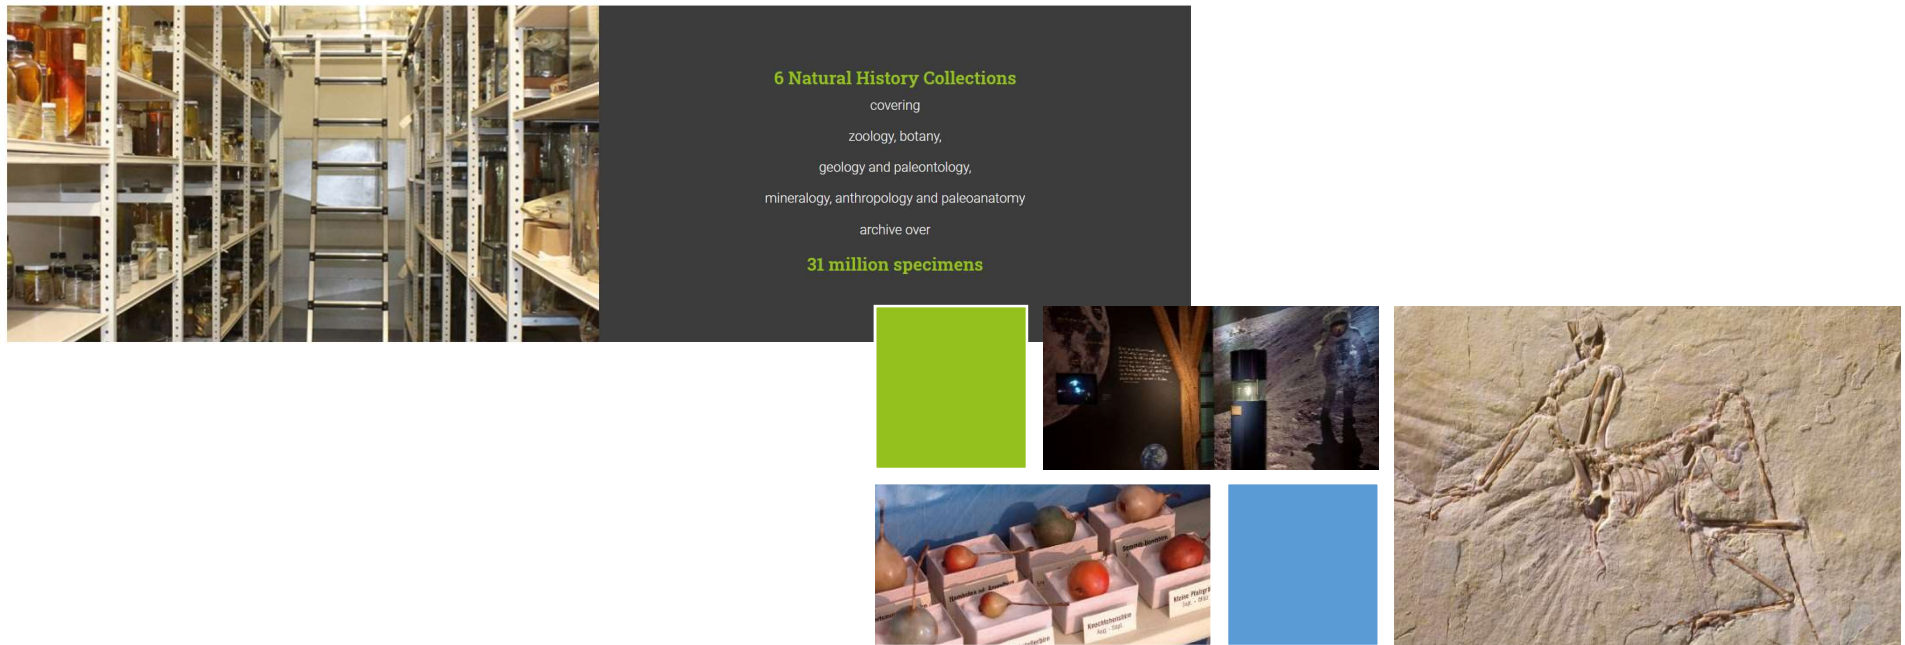

- founded 250 years ago
 - to bring together and merge all natural science collections of Bavaria, i.e. of the Bavarian Academy of Sciences, the king of Bavaria and the first university

SNSB Nowadays

- more than 31 million preserved single nature objects
- some from expeditions to Africa

Facts and numbers

DWB Training with ITCER tools and data in Africa, 16.10.2024

SNSB Collections and research focus

- collection scope: worldwide
- the organisation has 300 employees
- several departments and regional museums

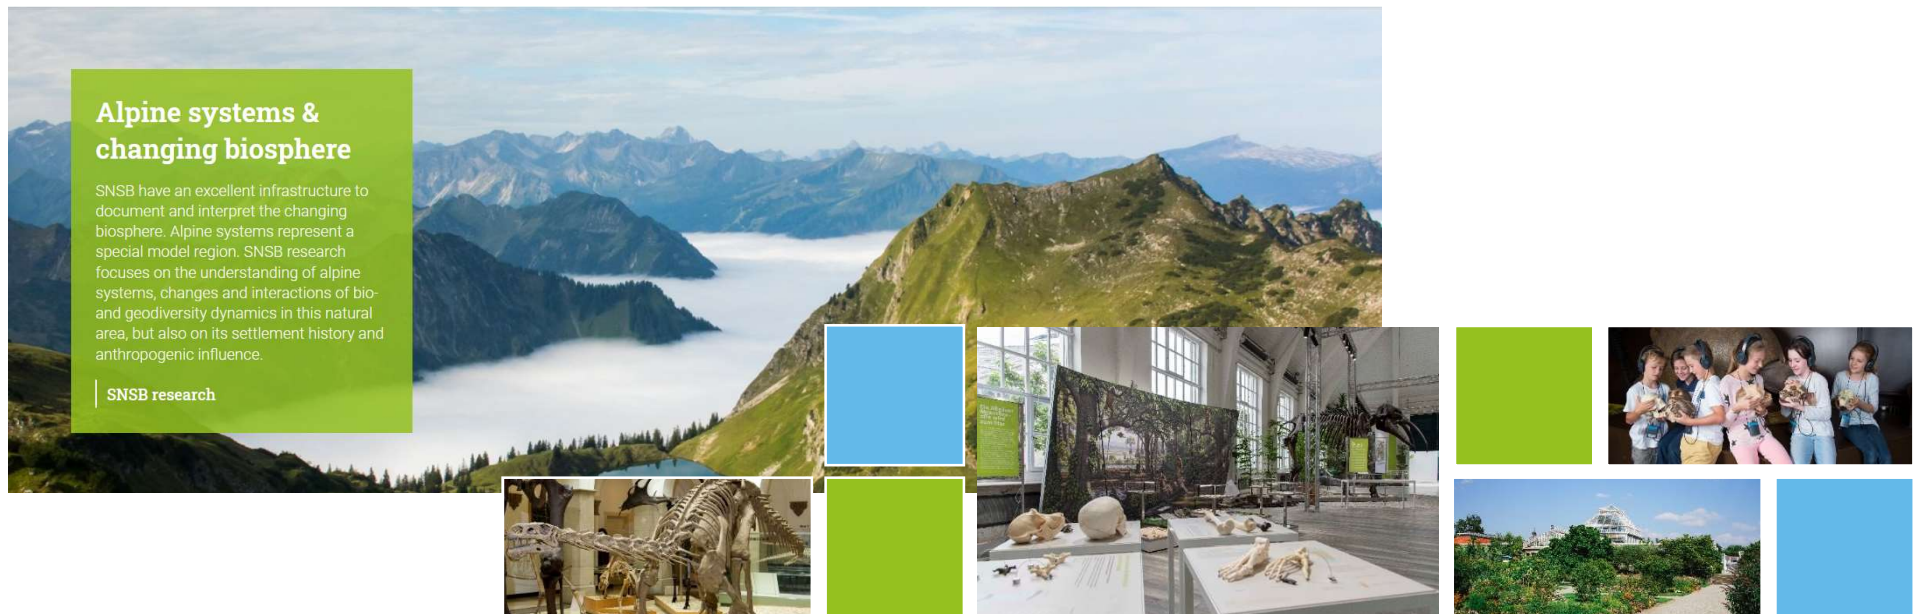

DWB Training with ITCER tools and data in Africa, 16.10.2024

SNSB Collections and research focus

- several research profiles, among others:
 - changing biosphere
 - digital collections and collection-related data science

SNSB data science

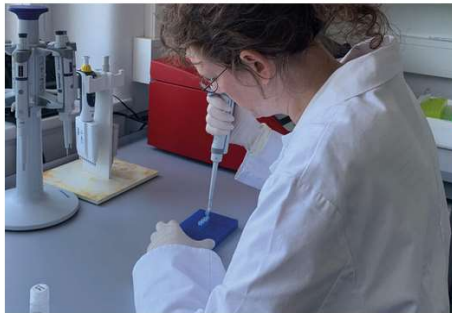

- Tanja Weibulat (data scientist, biologist, GBIF-D node staff)
- Dagmar Triebel (associated researcher, GBIF-D node manager)
- Stefan Seifert (Biodiversity Informatics Scientist, head of SNSB IT Center, remote)

SNSB IT Center (www.snsb.info)

- implement software (e.g. Diversity Workbench)
- run own infrastructure with APIs and tools
- manage, preserve and publish collection-related data products

DWB Training with ITCER tools and data in Africa, 16.10.2024

SNSB IT Center (www.snsb.info)

- manage data pipelines for networks like the Global Biodiversity Network (GBIF) and the German National Research Data Infrastructure (NFDI)
 - 15,7 mio. occurrence and checklist data records in GBIF

The screenshot shows the SNSB IT Center website. The top navigation bar is green with links for 'Get data', 'How-to', 'Tools', 'Community', and 'About'. On the right, there are icons for a home page, a search bar, and a 'Login' button. Below the navigation bar, the text 'PUBLISHER | SINCE MAY 3, 2010' is displayed. The main heading is 'Staatliche Naturwissenschaftliche Sammlungen Bayerns'. Below this, there are four green boxes showing statistics: '15,758,495 OCCURRENCES', '15,771,323 HOSTED OCCURRENCES', '81 DATASETS', and '2,378 CITATIONS'. The 'ABOUT' link is highlighted. The main content area contains a description of the SNSB as a public consortium of scientific research institutions, natural history museums, and a botanical garden. It also lists endorsed by GBIF Germany, installations (DiversityTaxonNames Server and BioCAsE Installation), administrative contact (Dagmar Triebel), technical contact (SNSB IT Center), country or area (Germany), and hosting (82 datasets, 2 publishers, 2 countries). The SNSB logo is visible on the right side of the main content area.

Description: The Bavarian Natural History Collections (Staatliche Naturwissenschaftliche Sammlungen Bayerns, SNSB) are a public consortium of scientific research institutions, natural history museums and a botanical garden. They are a sub-item of the Bavarian State Ministry of Sciences, Research and the Arts. All these institutions are located in Bavaria and have a wide range of tasks and goals. The data provided by the SNSB are processed by the SNSB IT Center (www.snsb.info). The data ownership is as cited under the single data resources.

DWB Training with ITCER tools and data in Africa, 16.10.2024

SNSB involvement with ITCER

- RDM Workshops 2022, 2023 and 2024 in relation to DWB and GBIF
- cooperation of GBIF participant nodes Kenya and Germany to mobilise data for GBIF
- engagement of SNSB IT Center in diverse and highly structured biodiversity data products as presented by ITCER
- engagement of SNSB IT Center in biodiversity informatics with tools realised by ITCER

DWB Training with ITCER tools and data in Africa, 16.10.2024

Thank you!
