

# ITCER in GBIF: To become a publisher of occurrence data

Dagmar Triebel

Expert Workshop on GBIF Data Publication in Africa, 17.10.2024

#### GBIF network

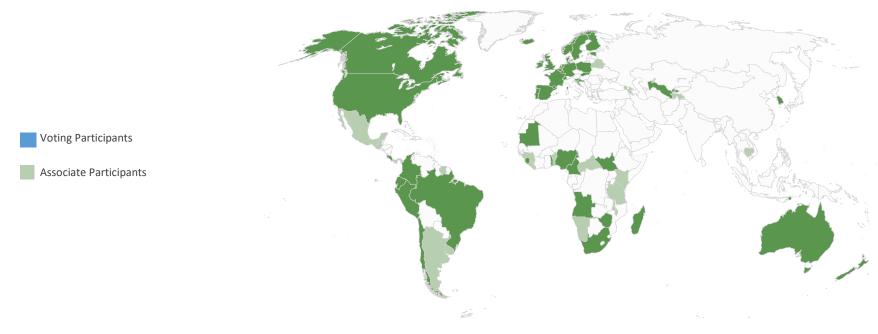

By the numbers | 1 July 2024 www.gbif.org

### GBIF Participant countries: 142

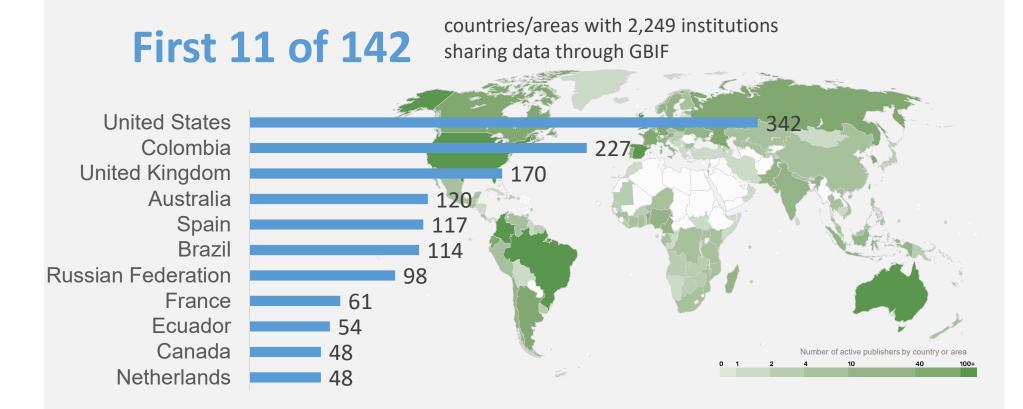

1 July 2024

https://www.gbif.org/the-gbif-network

### GBIF data publishing institutions: 2,249

#### 1 July 2024

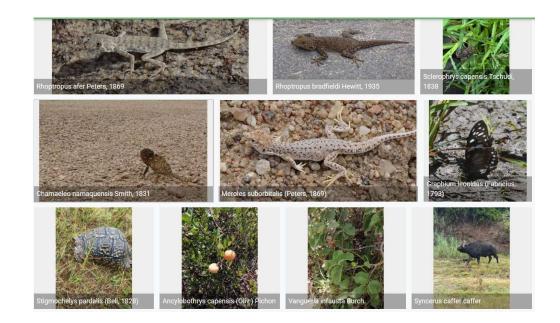

#### **GBIF Network**

#### Species occurrence records with multimedia evidence

#### 180.7 million records with taxonomically identified images

- 120.6 million human observations
- 55.0 million specimens
- 2.8 million material samples
- 1.4 million fossil specimens

1,420,991 audio files 10,418 videos

### GBIF Network: www.gbif.org

- GBIF Secretariat, IT Network
- GBIF Participants, e.g. nodes of countries, e.g. of Kenya
- GBIF Data Publishers (organisations), e.g. ITCER
- GBIF Datasets with occurrence data records, e.g. ITCER Macrobiome dataset on site

#### ITCER in GBIF — a guideline

- To become a data publishing institution
  - Fulfill administrative endorsement criteria
  - Fulfill technical endorsement criteria (agreement with hosting centres or participant node organisation)
- After that: ready to publish one or more datasets
- Attention! No individuals can provide data for GBIF
- GBIF Data Publishers are organisations.

#### ITCER in GBIF — a guideline

- Data Publishing: The process of and agreements for making data freely and universally available on the Internet.
- 6. Data Publisher: A custodian that makes data publicly available, whether or not they are the data owner. In cases where data publishers are not the data owners, they will have declared that they have permission to make the data available under terms of the GBIF Data Publisher Agreement.

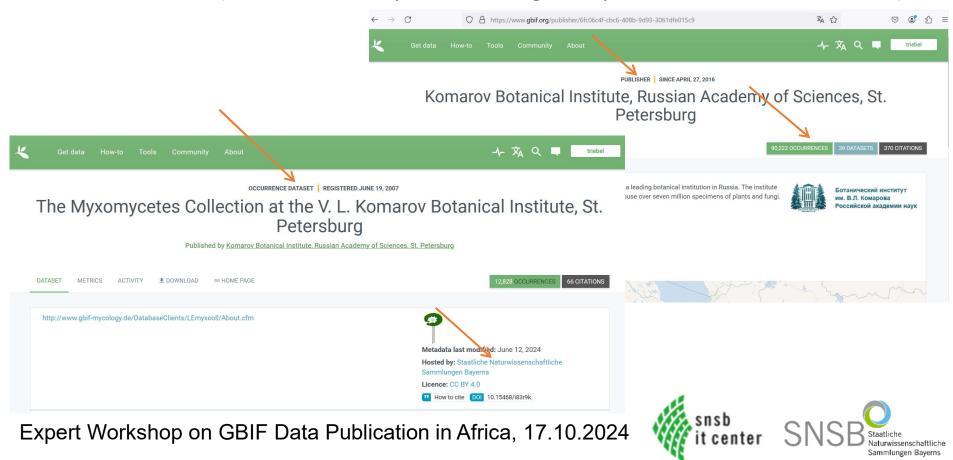

### ITCER in GBIF —To become a data publishing institution

 Data management and publication infrastructure might be hosted by SNSB like for Komorov Bot. Inst. (ABCD/ BioCASe option with long-term preservation via DWB services)

### ITCER in GBIF —To become a data publishing institution

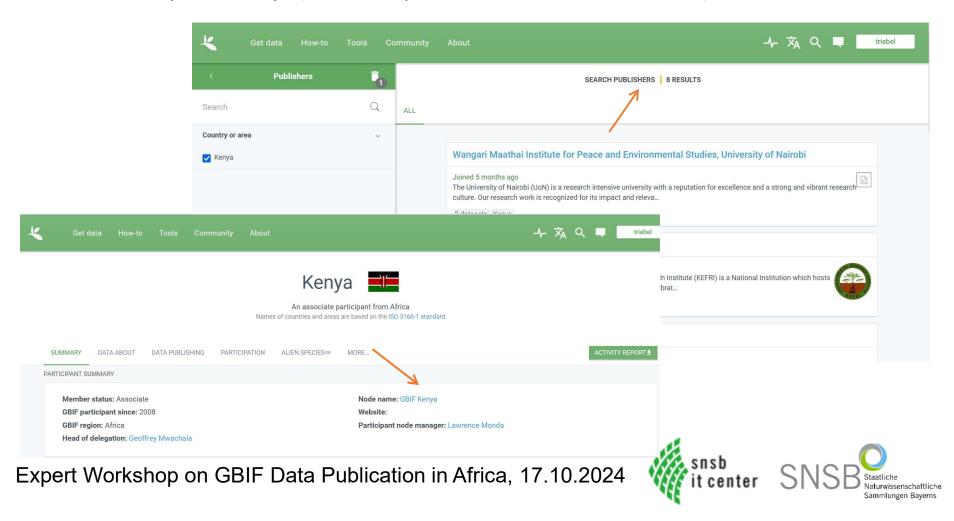

Data publication infrastructure might be hosted by National Museums of Kenya like for

## ITCER in GBIF —To become a data publishing institution

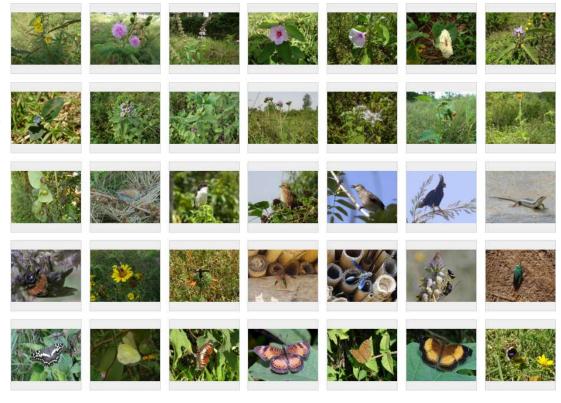

endorsed by GBIF Kenya (for both options: ABCD/ BioCAse and IPT)

# ITCER – GBIF occurrence dataset as a pilot

- Title, like "Photomonitoring of Macroorganisms occurring on ITCER site and their interactions"
- Scope, agents, licences
- Data pipelines
- Relation to GBF data paper
- .... to be discussed in the afternoon
